Note that you have to log in as Administrator (or have a user ID with admin rights) to be able to edit passwords

2nd Level Passcode:

••••

for external Wide Area Network access

Most browsers will probably work with OSCAR but the development team has been primarily using the latest versions of Firefox and Internet Explorer. The user interface assumes that the resolution of the screen is at least 1024x768.

Please select by clicking on the user name for details.

[◀ Back](#)

[Log Out ▶](#)

Click on the user ID whose password you want to reset

UPDATE A SECURITY RECORD

And now you can set a new password, and PIN

User Name:

Password: (at least 8 symbols)

Confirm:

Provider No.: 110

Expiry Date: Date:

Pin(remote) Enable: Pin(local) Enable:

PIN: (at least 4 digits)

Confirm:

[Back](#)

[Log Out](#)

The user can then reset his own password himself at the next login

The screenshot shows a web application interface for "Klein, G-Doctor Appointment Access". The main page features a calendar for Tuesday, 2010-02-23, with a time slot from 08:00 to 11:10. The user is logged in as "Hello Gunther Klein" with the group "Klein, Gunther".

Two pop-up windows are overlaid on the main page:

- UPDATE PREFERENCES - Mozilla Firefox**: This window displays a "PREFERENCE" form with the following fields:
 - Start Hour: 8 hr.
 - End Hour (<=23): 23 hr.
 - Period: 5 min.
 - Group No: 101Buttons for "Update" and "Close" are visible. Below the form are links for "Enable OSCAR CME UI" and "Change Your Password".
- CHANGE PASSWORD - Mozilla Firefox**: This window prompts the user to "Change your password" and provides instructions: "Enter your old password and then choose your new password. Click **Update** button when you're done." It includes three input fields:
 - Enter your **Old Password**:
 - Choose a **New Password**: (at least 8 symbols)
 - Confirm your **New Password**: (at least 8 symbols)Buttons for "Update" and "Back" are at the bottom.
